Euro Profile Modular Cylinder

With the Mul-T-Lock® Modular cylinder kit, you can build cylinders of any desired length, from 31 to 80 mm.

Based on “single cylinder” lengths of 31, 33 and 35 mm, the kit contains a vast assortment of parts for building cylinder sides of any length, and creating cylinders of unusual sizes such as 31X31, 33X78, or 35X40, etc.

Assembly is as easy as 1,2,3. Just pick out the parts required for the desired length, according to the attached Reference Table, and assemble them together.

The cylinders are built on a central two-sided bar, with each side identified by a number indicating the length group it belongs to.

Bars for double sided cylinders are marked “X,X” (2 digits), while bars for single sided cylinders are marked “X” (one digit)

Example

The following parts are required for building a 31X46 mm double cylinder:

- For the 31 mm side: 1 bar type 1, 1 body type 31, plug 31, and nothing else
- For the 46 mm side: 1 bar type 2, 1 body type 31, plug 31, 15 mm body spacer, 15 mm plug spacer and 15 mm plug adapter
- 1 bar adapter
- 4 threaded pins

Note: cylinder bodies and plugs should be ordered separately according to the profile (keyway) you are using, and based on the Reference Table.
To restock the kit, use special catalogue numbers.

Double cylinder
