

# 4-Way Lock 603

## Application

Installed inside wood or metal doors to provide 4-way multi-bolt locking.

## Operation

- 360° key rotation for deadbolt action
- Additional travel for latch action
- Left- or right-hand application

## Options

- Hardware colors: white, brown, shiny brass, nickel chrome, gold
- Fixed outside handle

## Materials

Case and mechanism: steel

Bolts: steel (optional hardened)

Cylinder protector: hardened steel

## Additional feature

Patented 18 mm Double D shaped bolts allow installation in narrow frames, and enable use of front plate (22 mm width) to fit regular steel door types.

## Standards

- ISI technical specification 196
- EN12209
