

MATRIX
LEADING INNOVATION

Industrial Tool
Locker &
Tracking System

“With MATRIX I do not need to worry about the loss of tools, keys and other expensive equipment. Everything is available and everyone are accountable for what they take. I can only regret not having this system sooner”

**Dave Green,
Plant manager**

Prevent tool loss!

Increase availability!

Improve efficiency!

As a manager, you are well aware of the importance in having keys, tools, inspection devices and other necessary equipment available to keep your production running.

Matrix is a world leading supplier of vending machines which enables a secure storage of valuable equipment while the access to each item is fully managed.

The system keep track of every operation made and helps you to stay in control knowing who took what, when and for what propose.

Having MATRIX on site will make your employees accountable for the tools they take and will reduce tool loss expenses.

HOW DOES IT WORK

- 1 Identify**
Biometric / RFID Tag Pin code

- 2 Select item**
According to personal authorizations

- 3 Receive access**
To the requested object only

Video Records

For an even higher level of security, a dedicated camera can be added to capture every transaction

Fits your needs

Design your own drawers by selecting any combination of 19 bin sizes to utilize capacity.

From a key size compartment to power drill and scanners size – everything is possible!

For cutting tools management contact [CTMS](https://www.ctms.com)

The control you want
with the
security you need!

Video log

- ✓ Limit system access to working hours only
- ✓ Limit the number of items that a user can hold at the same time
- ✓ Require users to report check out reason
- ✓ Determine due date of each item
- ✓ Send alerts when item wasn't returned on time (user + manager)
- ✓ Document every transaction by video camera
- ✓ Send alerts when a drawer was forced open and start the camera
- ✓ Control from a remote location
